~~Case Formulation in Cognitive Behaviour Therapy: The ...~~

Abstract: This article describes a case formulation-driven approach to cognitive-behavior therapy (CBT) that draws on the formulations and interventions in the ESTs while helping the therapist make many of the clinical decisions that are not directly addressed in the ESTs. We begin the article with an overview of case formulation-driven CBT. Then we describe each of the steps of case formulation-driven CBT, giving special attention to the step of developing a case formulation.

~~Developing and using a case formulation to guide cognitive ...~~

The extended formulation was successful in helping the individual to develop a less threatening understanding of how OCD works, enabling her to engage in therapy. This led to a reduction in the duration of the overt compulsions in her behavioural measures although on the standardised measures there was no change in self-reported OCD symptoms.

~~Extended formulation in cognitive behavioural therapy for ...~~

In Cognitive Behavioural Therapy (CBT) the case formulation is based on the Cognitive Model of emotional disorders, first developed in detail by Aaron T. Beck. At its simplest level it focuses on Negative Automatic Thoughts which are locked into vicious cycles with dysfunctional emotions, behaviours and somatic symptoms.

looking at people's cognition and how it explains behaviour. It looks at thought patterns, how they have developed, and how they may be driving behaviour (Tarrier, Wells & Haddock 2008).

~~Cognitive behavioural therapy formulation~~

A case formulation is a hypothesis about the psychological mechanisms that cause and maintain an individual's symptoms and problems (Kuyken et al., 2009; Persons, 2008). It's a principle-driven approach that targets mechanisms grounded in basic psychological theories—such as cognitive theory, classical and operant conditioning.

Assessment and Case Formulation in Cognitive Behavioural Therapy is a comprehensive guide to key areas of professional knowledge and skill. The successful outcome of therapy depends on the therapist's ability to work collaboratively with clients to create rounded assessments and formulations as a solid basis for therapeutic work.

~~Assessment and Case Formulation in Cognitive Behavioural ...~~

A formulation is a tentative explanation or hypothesis as to why an individual presents and maintains a particular disorder or circumstance at a particular point in the time (Weerasekera, 1993) The present essay will look at the formulation of cognitive behavioural perspective in light of Cara's case study.

~~Case study on formulation of cognitive behavioural perspective~~

Case formulation is the abstraction of key features of a clinical case that guide idiographic treatment. It is often rationalized as a reaction to the limits of psychiatric diagnosis whether as an alternative or complementary approach. Andersson and Ghaderi (2006) provided an analysis of five limitations of DSM-IV.

The second edition of Beyond Diagnosis is a fully updated and expanded examination of Vic Meyer's pioneering case formulation approach and its application to cognitive behavioral therapy. Featuring a foreword by Ira Turkat, the book discusses the benefits of this seminal approach to CBT and shows how dynamic, individualized assessment of complex individual problems can be more effective than standard diagnostic classification.

~~Beyond Diagnosis: Case Formulation in Cognitive ...~~

In the case formulation-driven approach to cognitive-behavior therapy, the therapist begins by collecting assessment data to obtain a diagnosis and an initial formulation (conceptualization) of the case. The formulation is a hypothesis about the mechanisms causing and maintaining the patient's problems.
