INTRODUCTORY COURSE | meaning in the Cambridge English ...

This course is aimed at those new to programming and provides an introduction to programming using Python. This course is probably unsuitable for those with programming experience, even if it is just in shell scripting or Matlab-like programs. Such individuals should try the “Python: Introduction for Programmers” course instead. By the end of this course, attendees should be able to write simple Python programs and to understand more complex Python programs written by others.

Python: Introduction for Absolute Beginners — IT Help and ...

NOTES. This unit provides a brief introduction to computer hardware and software. We have included this unit to help those who are teaching students with no computer background. However, any introductory course in the use of micro-computers is likely to have covered this material already. Binary notation is introduced here.

UNIT 3 - INTRODUCTION TO COMPUTERS

This course companion to the 'Introduction to Philosophy' course was written by the Edinburgh Philosophy team expressly with the needs of MOOC students in mind. 'Philosophy for Everyone' contains clear and user-friendly chapters, chapter summaries, glossary, study questions, suggestions for further reading and guides to online resources.

Introduction to Philosophy | Coursera

These lecture notes are based on an introductory course on quantum field theory, aimed at Part III (i.e. masters level) students. The full set of lecture notes can be downloaded here, together with videos of the course when it was repeated at the Perimeter Institute. Individual sections can be downloaded below.

David Tong: Quantum Field Theory

These lectures are designed to give students a gentle introduction to applied mathematics in their first term at Oxford, allowing time for both students and tutors to work on developing and polishing the skills necessary for the course. It will have an 'A-level' feel to it, helping in the transition from school to university.
