Political Economy Definition

Political economy is the study of production and trade and their relations with law, custom and government; and with the distribution of national income and wealth.

As a discipline, political economy originated in moral philosophy, in the 18th century, to explore the administration of states' wealth, with "political" signifying the Greek word polity and "economy" signifying the Greek word " oikonomía " (household management).

the Sign: Jean ...

Every economy is a political economy and the enormous success of the U.S. economy has been as dependent on our political system as on our economic system. Indeed, many of the problems that currently plague the U.S. economy are the result of our failure to hold on to the political wisdom that guided our Founding Fathers.
